

## Deep Cleaner

uri**STRONG**

Art.Nr. 618 730 030

uri**STRONG** deep cleaner is ideal for heavy and persistent dirt and deposits in sanitary areas. uri**STRONG** also removes lime and urine scale.

The recommended application is 3 to 6 times per year.

①

» Lift cover with suction device.

②

» Pour 100 ml of uri**STRONG** directly into urinal.

» Leave for 5 to 15 minutes.

③

» Flush with 5 litres of warm water to ensure waste trap clears.

④

» Clean urinal opening and the inside of the waste trap with a brush.

» Flush again. Slowly refill waste trap with water.

⑤

» Insert the cover and pour uri**LOCK** over the cover.

## Daily Cleaning

**uriCLEAN** 

Art.Nr. 618 728 050

uridan can be cleaned very simply with the aid of **uriCLEAN**. Simply spray the urinal surface with **uriCLEAN** and the lotus effect prevents any adhesion of urine drops, causing them to simply roll off.

①

» Spray **uriCLEAN** daily on the cover and surface of the urinal.

②

» Remove the cover and clean urinal opening and cover with a brush every 2 weeks.

③

» Polish the outer and inner surface of the urinal with the **uriCLOTH** cleaning cloth.

\* In high traffic amenities, we recommend cleaning the urinal several times a day.

## Refilling

**uriLOCK** 

Art.Nr. 618 729 030

Our especially developed biodegradable blocking fluid **uriLOCK** ensures that your uridan urinal remains completely odourless, operating without the need for costly sealants or chemical additives.

» Pour **uriLOCK** blocking fluid directly over the cover.

\* Refill according to frequency of use (every 1-3 months)
